Yola 25kw Boiler

The largest of our boiler stoves, our 25kw comfortably heats up to 18 radiators. Unique, classic & efficient, this is the perfect stove for your home.

- 100% Irish
- Metallic black finish
- Riddling system to clear ash
- Multi-fuel grate
- 18kw output: to boiler (BTU 61,500)
- 7kw output: to room
- External air option available
- Thermostatically controlled
- Efficiency in excess of 75%
- Reduces fuel consumption by 50%
- Air wash technology for cleaner glass
- Heavy gauge steel body with cast iron door
- Dry (non-boiler) option available
- European standards EN 13240 CE

Yola Fire Front

If you have an existing back boiler on your open fire, then this is the stove for you. By installing the Yola Fire Front, you create all the features of a stove, while keeping your existing grate and fire box. It also comes with the Yola convection chamber giving you more heat, while burning half the amount of fuel and increasing the efficiency of your back boiler by up to 20%.

- 100% Irish
- Metallic black finish
- 2.5kw output: to room
- Overnight burning
- Efficiency in excess of 65%
- Reduces fuel consumption by 50%
- Air wash technology for cleaner glass
- Heavy gauge steel body & cast iron door
- European standards EN 13240 CE

YT Insert

Our Yola Tapered Insert delivers an impressive 5kw output to the room. It fits your standard fireplace without having to alter your fire back.

- 100% Irish
- Metallic black finish
- Multi-fuel grate
- 5kw output: to room
